**BAND BANK**

The BB5 Band Bank has 5 bands with different degrees of resistance. Specific band resistance is easily identified by a distinct color. The Clip-N-Go system allows the use of one or multiple bands to adjust the amount of resistance needed.

Clip to a band(s) at the top or bottom for specific angles of force. Clip the top and bottom of a band(s) together to create various horizontal forces. When clipped to a band(s), the swivel pulley design follows you, giving you free and natural movement. (Includes 1 handle and 2 ankle straps)

The BB5 can be attached to a wood stud wall with HeadLok engineered screws or to a concrete wall with concrete wedge anchors. (4 HeadLok engineered screws are included)

Multiple BB5 units can be mounted side-by-side to a wall for increased versatility.

Concrete and block wall anchor kits sold separately.

Overall Dimensions & Weight:  
 22.5"W x 4.25"D x 78.75"H  
 50 lbs.

Shipping Specifications:  
 84"L x 30"W x 18"H  
 100 lbs.  
 Class 70
